

BUILDING SUCCESSFUL PARTNERSHIPS

Investing Private Equity in Founder-Led Businesses

Flexible Capital

We provide creative and flexible capital – investing minority or majority equity, in full recapitalizations or growth equity structures.

The Private IPO®

Our innovative Private IPO® deal structure allows founders to gain significant liquidity while maintaining voting control and maximizing ongoing equity ownership.

85% Liquidity

Up to 85% liquidity for shareholders – diversify founder net worth and/or cash out inactive shareholders

51% Control

51% voting stock retained by founder

50% Ownership

Up to 50% common equity value to founder – significantly more incentive equity than a traditional leverage buyout

Where We Invest

We invest in multiple industries. Our companies are linked together by their successful founders who want to maximize growth.

Business Services

Healthcare

Manufacturing
